

## Charles Gundlach Autobiography

My name is Charles Gundlach; I live in San Jose, CA. I am a retired Systems Analyst/Consultant with many years of experience. My last contract was as a SW Test Consultant for a SW Test Group responsible for testing embedded SW on armored vehicles. I was there for 3 years when my contract was illegally broken two months early.

I engaged an attorney and for almost 3 years BAE Systems has been stringing me along. Recently my attorney stated that he knew that someone at BAE Systems had not liked me for a long time, and would see to it that I would never receive the \$35000 owed to me *and* would destroy me in the process. This person – Jim Drehs - has threatened my life once when he was extremely angry. Everyone fears him and none want to get involved. Now, having nothing else to lose I will do all that I can to publically expose him.

The extreme stress he has caused resulted in severe depression with some periods of extremely high blood pressure. I recently found that the extremely high blood pressure has damaged my kidney, reducing its function to only 30%.

My wife, Ally, has been working 4 caregiver jobs 6days/week to attempt to avoid homelessness and she now has serious health problems as well as a result of overwork and stress.

I am 76, and although I am now feeling my age due to circumstances described above, my thoughts and interests are younger.

I applied for The Art Institute of Pittsburgh for two main reasons:

1. To achieve a *diploma in Web Design* so as to get a related position or work as a freelancer from home thus relieving my wife from the strain of overwork.
2. To create a website to help the many seniors suffering as a result of Senior Financial Abuse, and to ultimately create a non-profit organization for that same purpose.
