Mr. Gundlach,

I have finished up my initial investigation and have forwarded the information to the Cowlitz County Prosecuting Attorney's Office for review. They in turn will review and either make a decision on filing formal charges, send it back to me with further investigative instructions, or send it back with an evaluation that the issue is civil and should be handled as such. Unfortunately, it could take some time before I/we hear back from the prosecutor's office. If you have any further requests feel free to contact me. If I receive any information I will forward it to you as soon as I get it.

If you have any issues other than the current one please call. We are a phone call away.
