

# Utilities - ODS and M7 FS3 Databases – Update 02/26/07 cg

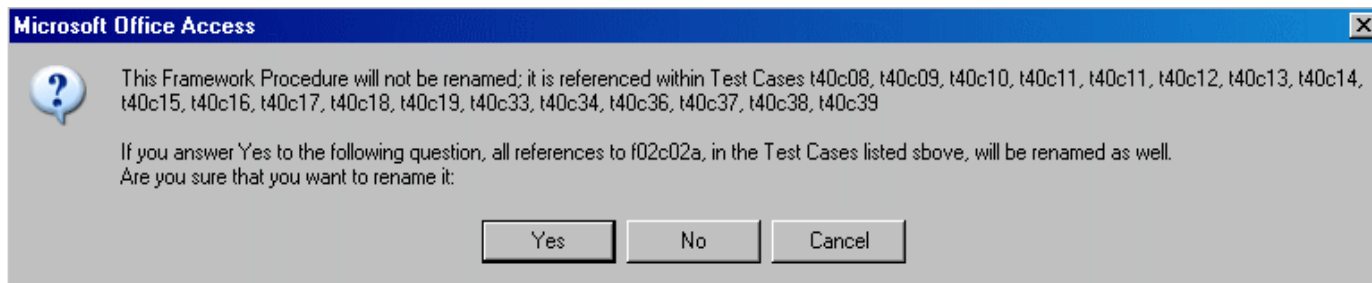

This (hopefully) will be the final update on this subject for a while.

## 1. Rename a Test Case

Renames an existing Test Case or Framework Procedure. – either the PUI or the Test Case Name (Title)

**(Note:) The latest response (below) to an attempt to Rename any Framework procedure linked to a Test Case now allows the rename to take place when the user enters a positive response to the message.....**

**The designated Framework is renamed, as well as references to it in all of the listed Test Cases.**

A screenshot of a "Rename Test Case : Form" dialog box. The title bar reads "Rename Test Case : Form". The main heading is "Rename a Test Case or Framework (PUI -or- Test Case Name)". There are two sections. The first section has "Old PUI:" followed by a dropdown menu and "New PUI:" followed by a text input field. Below these are two buttons: "Submit New PUI" and "EXIT". The second section has "Old TC Name:" followed by a dropdown menu and "New TC Name:" followed by a text input field. Below these are two buttons: "Submit New Test Case Name" and "EXIT". In the bottom right corner, it says "cg 2007".
